

# Chart Formula

CHARTING YOUR PERSONALITY WITH NUMEROLOGY

## The Birth Day Numbers

The following numbers are calculated from the birthday numbers and will never change throughout life:		
<b>Life Path Number</b>	The most important number in your chart, it is the life purpose and the energies you need to manifest in order to feel fulfilled	Birth day + birth month + birth year
<b>Birth Day Number</b>	The number that represents your natural talents and abilities	Birth day number
<b>Attitude Number</b>	The first impression other people get from you	Birth day + birth month

## The Name Numbers

The following numbers are calculated from the name and can be changed by changing the name being used:		
<b>Soul Number</b>	The second most important number in your chart, it is the energies your soul needs to manifest to fulfill your personal and spiritual needs	Sum of vowels in name
<b>Personality Number</b>	This is the face you show the world and how you want others to see you	Sum of consonants in name
<b>Power Name Number</b>	The most important Number in your name, represents the strength of your name and additional lessons you will learn in your life	Sum of vowels + consonants in name

The following number is calculated from the birth certificate name and will never change throughout life:		
<b>Destiny Number</b>	Holds the same position as the Power Name Number and only applies if different from current name	Sum of vowels + consonants of birth certificate name

## Additional Numbers

The following number is observed from the results of the other numbers in the numerology chart:		
<b>Intensity Number(s)</b>	If you have two or more of the same numbers, the energy of those numbers intensify and become more dominant in your chart.	A chart can have 0 or up to 3 Intensity Numbers.
